

Project:	
Type:	

Allegro Media Tube® Lite fits into any wall, façade or media lighting application with tight installation requirements, while the wide beam angle output and 10-pixelsper-meter ensures a smooth illumination experience. Featuring auto addressing and quick lock connectivity, this greatly simplifies the lighting installation for building façades, media applications, bridges and more.

This product is intended for use in high-quality colored light applications.

Product Specifications

	Direct View			Diffused View			
	300mm	500mm	1000mm	300mm	500mm	1000mm	
Light Source	18 RGB	30 RGB	60 RGB	18 RGB	30 RGB	60 RGB	
Color Range	16.7 Million ad	ditive RGB colors	3				
Beam Angle	90°			115°x170°			
Luminous Flux	92 lm	164 lm	334 lm	91 lm	160 lm	341 lm	
Efficacy	23.9 lm/W			24.4 lm/W			
Pixel Pitch	100mm						
Pixel Configuration	6 RGB LEDs p	er pixel		6 RGB LEDs p	6 RGB LEDs per pixel		
Number of Pixel	3 pixels	5 pixels	10 pixels	3 pixels	5 pixels	10 pixels	
Housing	Extruded Aluminum						
Cover Lens	Clear Glass			PC			
Adjustment Options	Fixed, non-adj	Fixed, non-adjustable					
Dimensions (W x H)	, , ,	24 x 26mm, 32.6 x 54mm (mounting bracket included)		24 x 40mm, 32.6 x 68mm (mounting bracket included)			
Dimensions (L)	300mm	500mm	1000mm	300mm	500mm	1000mm	
Weight	0.35kg	0.52kg	0.85kg	0.35kg	0.52kg	0.85kg	
Regulatory Listing & Safety Approval	CE						
Operating Temperature	re -40°C to +50°C / -40°F to +122°F						
Storage Temperature	-40°C to +70°C / -40°F to +158°F						
Environment	Outdoor, IP66, IK08 (Diffused View)						
Humidity	10-90%, non-o	condensing					

Electrical Specifications

Operating Voltage	48V DC
Power Consumption	4.2W / 7W / 14W

System Specifications

Control	DMX512
Power Supply	LED Engine 48V Outdoor
Addressing Options	Auto-addressing per daisy-chain

Fixture Interconnection 17 meters

LED CHARACTERISTICS Because LEDs are semiconductor devices, their performances are subject to inherent variability commonly found in semiconductor industry. To improve consistency in performance across the same product, LED manufacturers "sort" LEDs into bins according to different preset parameters, such as forward driving voltage, illumination, etc. Whereas binning is a sorting function, it is not a correction process, inherent variability in the manufacturing process results always in different binning distributions according to different production lots. Traxon uses automatically binned LEDs on its products, thereby minimizing output variations within the model range.

As with all electronic devices, LED output degrades over time – a term called lumen depreciation. This also explains why it is nearly impossible to expect photometric performances of two LED products with different service life spans to be the same. The rate of LED degrade is a complicate function of many factors such as operating efficiency, duration of continuous operation, and more significantly, environmental conditions (ambient temperature or example). If allowed working under opiniting length experiture great and with good verifitation, LED devices enjoy long service lives over conventional light sources. When using/installing LED devices, care should be taken to ensure that the devices will operate within the operating conditions specified in respective product literature.

This product contains a light source of energy efficiency class G to Regulation (EU) No 2019/2015. Lumen measurement compiles with LM-79-08 standard. Lumen maintenance is calculated based on LM-80 compliant measurement.

To maintain consistent LED pitch and to allow for thermal expansion for Tubes.

Connector Pin Assignment

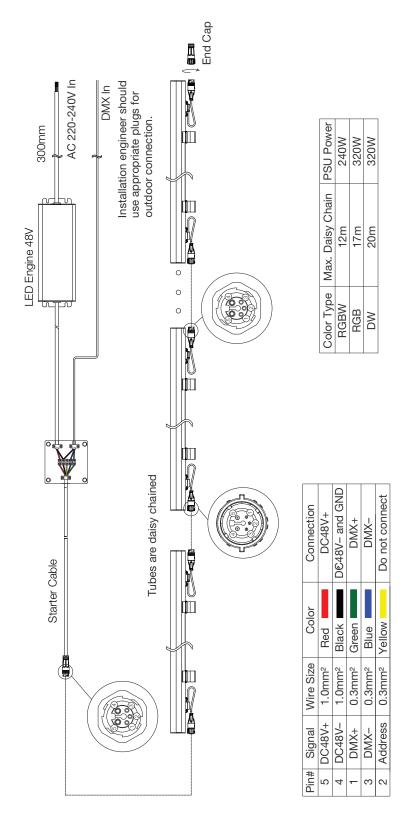

Wire#		Description	Color
	1	DMX+	Green -
2		Address	Yellow
	3	DMX-	Blue
4		DC48V-	Black ===
	5	DC48V+	Red

System Diagram

The Address wire only need to be connected during address configuration, it is not needed during operation.

This wiring diagram shows only typical connections. Actual wiring depends on LED Tube configuration and installation. Actual no. vary according to cable lengths and signal source. Please consult your local Traxon office for aid.
