

Product Highlights:

- Double injection technology
- Robust structure with longer length
- 20,000hrs lifetime
- Flicker-free

Light is revelation

LEDCOMFO® Batten G4

The same performance and optimized ID design upon the G3 version.

Light is OSRAM

OSRAM

LED COMFO® Batten G4

LED COMFO® Batten G4 is the latest batten light solution which provides the same performance and optimized ID design upon the G3 version. With the double injection technology, this product series has a robust structure with longer length that enables to replace the existing T5 batten in a more convenient way.

Advantages & Benefits

Excellent lighting experience

- Less than 5 steps SDCM offers consistent CCT
- Good uniformity based on optimized design
- Seamless connection without obvious dark spot
- Flicker-free

Rigidity

- Double injection body provides robust structure
- Strong and durable end cap
- 20,000hrs lifetime

Flexibility

- 1ft / 2ft / 3ft / 4ft for choices
- Longer length ensures easy replacement for traditional T5 batten
- Full range of accessories

Applications

- Cove lightings
- Indoor contour lightings
- Under shelf lightings
- Light boxes
