Ribbon Go 3

The Traxon Ribbon Go 3 family are flexible LED ribbons, which are economical with comprehensive features, available in both indoor IP20 and outdoor IP66 versions, making them the perfect solution for a variety of applications, including linear, flexible, creative ambient projects, curved lighting and freeform applications.

Applications

— General Lighting in shopping malls, hotels, restaurants, residential installations
— Decorative lighting
— Architectural lighting

Advantages & Benefits

High performance and reliability
— Ra80, 3 SDCM
— Up to 130lm/W
— Lumen Maintenance L70@25° - 30,000 Hrs
— Seamless connections between ribbons
— Warranty 3 years

Budget-focused
— Economic design

Full range to fulfill all applications
— Available with IP20 indoor and IP66 outdoor versions
— 2700K, 3000K, 4000K, 6500K
— ON/OFF, DALI, PWM, 0-10V, 1-10V, DMX2PWM Dimmer, Radio Frequency
— Complete connection solutions for IP20 and IP66 versions
— Variety of mounting options

Easy to Install
— Flexible fitting on curved surfaces
— 300mm input cable
— Easy to cut and install
