

TRAXON Pro*

Media Tube® Pro HD

Project: _____

Type: _____

IP66

COAST

E:VO PIX

ANSI 3G

Introducing Media Tube Pro HD – the ultimate outdoor video display solution. Boasting high resolution with configurable pixel pitch, this cutting-edge product delivers unparalleled clarity. With e:voPix Technology, Media Tube Pro HD offers pixel perfection, setting a new standard in outdoor video displays with extended connectivity, ensuring seamless compatibility, while the auto-addressing feature expedites hassle-free installations. Stay informed with real-time data feedback and trust in the active thermal protection for reliable performance in any outdoor condition. The DynaMood Technology guarantees vibrant visuals with precise color correction. Elevate your visual storytelling with this pinnacle of innovation, where excellence meets technology in every frame.

This product is intended for use in high-quality colored light applications.

Features

Available lengths: 598mm / 2ft (108PXL), 898mm / 3ft (162PXL), 1198mm / 4ft (216PXL) and 1498mm / 5ft (270PXL)*

- Direct View
- e:vo Pix
- Daisy Chain System with quick lock connectors
- Auto-Addressing per daisy-chain
- IP66, Suitable for Coastal Environment, and 3G Vibration Resistant

Product Specifications

	Direct View			
Options*	598mm/23"	898mm/35"	1198mm/47"	1498mm/59"
Number of Pixels	108 pixels	162 pixels	216 pixels	270 pixels
Light Source	108 RGB 3 In 1 LED	162 RGB 3 In 1 LED	216 RGB 3 In 1 LED	270 RGB 3 In 1 LED
Color Range	16.7 Million additive RGB colors, 48 bits			
Beam Angle	110° (Viewing Angle 145°)			
Luminous Flux (lm)	306	459	612	765
Efficacy (lm/W)	30	30	30	30
Luminance ¹ (cd/m ²)	4608			
Pixel Pitch ²	16.7mm / 0.66", adjustable			
LED Pitch	16 x 14mm / 0.63" x 0.55"			
Pixel Configuration ²	User configurable pixel pitch, 1 x LED = 1 Pixel as standard			
Housing	Aluminum Extrusion			
Lens	Direct View			
Mounting	U bracket, other brackets available by request			
Dimensions (W x H)	44 x 22mm / 1.73" x 0.87" (Mounting bracket excluded)			
Dimensions (L)*	598mm / 23"	898mm / 35"	1198mm / 47"	1498mm / 59"
Weight	0.66kg / 1.46lb	0.95kg / 2.09lb	1.15kg / 2.54lb	1.53kg / 3.37lb
Regulatory Listing & Safety Approval	UKCA, OE, cETLus, FCC, ANSI C136.31 - 3G			
Operating Temperature	-40°C to +60°C / -40°F to +140°F			
Storage Temperature	-40°C to +80°C / -40°F to +176°F			
Environment	Outdoor, IP66, Suitable for Coastal Environment, ANSI C136.31-3G			
Humidity	10-90%, non-condensing			

Electrical Specifications

Operating Voltage	48V DC			
Power Consumption	10.2W	15.3W	20.4W	25.5W
Lumen Maintenance	L70B50 80,000 hours@ 25°C			

System Specifications

Control	evo Pix
Power Supply ³	LED Engine 48V Outdoor
Addressing Options	Auto-Addressing
Fixture Interconnection	See System Diagram
Pixel Control ²	Adjustment of Pixels from 16.7mm / 0.66" to full length of luminaire ²

*. Length options differ by region. See your local Traxon representative for information.
1. - Direct View luminance represents the value of the composed screen which assumes the luminaire is installed with 50mm / 2" distance between Tubes.
2. The product can be compatible with a 56V power supply according to the actual project. Please contact sales for details.

LED CHARACTERISTICS Because LEDs are semiconductor devices, their performances are subject to inherent variability commonly found in semiconductor industry. To improve consistency in performance across the same product, LED manufacturers "sort" LEDs into bins according to different preset parameters, such as forward driving voltage, illumination, etc. Whereas binning is a sorting function, it is not a correction process. Inherent variability in the manufacturing process results always in different binning distributions according to different production lots. Traxon uses automatically binned LEDs on its products, thereby minimizing output variations within the model range.

As with all electronic devices, LED output degrades over time - a term called lumen depreciation. This also explains why it is nearly impossible to expect photometric performances of two LED products with different service life spans to be the same. The rate of LED degrade is a complicated function of many factors such as operating efficiency, duration of continuous operation, and more significantly, environmental conditions (ambient temperature for example). If allowed working under optimal operating temperature range and with good ventilation, LED devices enjoy long service lives over conventional light sources. When using/installing LED devices, care should be taken to ensure that the devices will operate within the operating conditions specified in respective product literature.

This product contains a light source of energy efficiency class G to Regulation (EU) No 2019/2015.
Lumen measurement complies with LM-79-08 standard.
Lumen maintenance is calculated based on LM-80 compliant measurement.

Source Specifications

Length Option*	598mm / 23"	898mm / 35"	1198mm / 47"	1498mm / 59"
Source	108 RGB 3 In 1 LED	162 RGB 3 In 1 LED	216 RGB 3 In 1 LED	270 RGB 3 In 1 LED
Optics	110°			
Lens	Direct View
